

What areas are checked in a standard residential inspection?

Who can benefit from a standard residential inspection?

- Homebuyers (new construction or pre-owned homes).
- Homeowners preparing to sell their homes (pre-listing inspection).
- Homeowners interested in keeping their home in peak condition (maintenance inspection).
- Owners of newly-built homes that are approaching the end of the builder's warranty period.
- New homeowners who waived the pre-purchase inspection.
- Landlords who would like to have rental property inspected.
- Townhome or condo owners (single units only).
- Owners of mobile or manufactured homes.
